Experience

2026

Bharti Airtel Limited

Networks Engineer

Working within the networking sector to understand, analyze, and optimize core telecommunication infrastructure. Transitioning academic ECE concepts into real-world industry applications at one of India's leading telecom providers.

2026 - Present

Toastmasters

International

Vice President Membership

Dynamic VPM experienced in driving club growth, boosting member retention, and implementing strategic onboarding initiatives to maximize overall member engagement.

2025 - 2026

ProdInno

Member

Proactive Prodinno Club member for one academic year, actively fostering innovation, collaborating on technical projects, and engaging with the community.

Education

2024 - 2028

VIT Chennai

CGPA - 8.48/10

Bachelor of Technology - ECE

Maintaining a strong academic track record in B.Tech ECE while actively balancing technical project development and active club participation.

2009 - 2024

Chettinad Vidyashram

Class XII - 442/500

Computer Science

Pursued Computer Science stream, focusing on foundational programming languages, problem-solving, and computational logic.

Projects

Airtel Data Formatter App

Internal utility tool for Bharti Airtel's network sector. Processes heavy raw telecom logs into structured formats, cutting manual engineer workload dramatically.

18T SRAM Radiation Analysis

Simulated a radiation-resilient 18T SRAM cell layout. Interpreted complex SEU data graphs to measure and validate soft error prevention mechanisms.

Audio-Triggered Hardware Lock

Security system processing audio waves via a sound sensor. Matches specific frequencies to trigger a mechanical servo lock for access control.

Skills

Hardware & VLSI: Verilog, Digital Electronics, Analog Circuits, Device Modelling, Low-Power Design

Programming & Scripting: Python, Java, MATLAB, C++ , HTML, CSS, JavaScript, Keil

Software/EDA Tools: Cadence Virtuoso, LTSpice, Quartus Prime, Keil, TCAD

Teamwork & Leadership: Led diverse student clubs, ensuring inclusivity and results
